Career Objective

Engineering student working with Python and CSE, with a strong interest in designing and scaling real-world systems. Interested in intelligent applications and motivated to contribute meaningfully while continuously learning and evolving as a developer.

Education

Malla Reddy Engineering College For Women, Hyderabad 2023 – 2027
B.Tech in Computer Science Engineering CGPA: 8.23

Alphores Junior College, Karimnagar 2023
MPC Percentage: 89.2%

Technical Skills

- **Languages:** Python, SQL, Java(basic)
- **Data Visualization Tools:** Power BI , Microsoft Excel
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Databases:** MySQL
- **Tools:** Git, VS Code, Google Collab

Projects

Alzheimer Disease Prediction Using Machine Learning Machine Learning

Python, Scikit-learn

Developed a machine learning model to predict Alzheimer's disease using medical and clinical datasets. The project involved data preprocessing, feature selection, and classification to support early disease detection.

DNA Sequence-Based Disease Classifier Using Machine Learning Machine Learning

Python, Scikit-learn

Implemented a machine learning-based system to classify diseases using DNA sequence data. Performed sequence encoding, feature extraction, and trained classification models for accurate disease prediction.
